GRY - Light Mauve / Blue

Leonardo Da Vinci: The name which inspires devotion! Leonardo preached that to be a great artist, one must know all the rules of perspective, and all the laws of nature. He believed that the eye was the perfect instrument for learning these laws and the artist the perfect person to illustrate them.

DV Case

Thus in the event of a less than perfect set of eyes, Da Vinci eyewear, the art of framing, has been produced to supply every set of eyes with a personalized piece of art.
